

Sunrun

New Homes Program

We Make Solar Simple for Home Builders

Sunrun is proud to be the nation's leading residential solar, storage and energy services company and is best suited to partner with new home builders to incorporate solar and storage into the build schedule. We are currently installing for 5 of the nation's top 10 largest builders.

We partner with you

Every home builder has unique business needs and operational preferences. With more installed home solar systems than any other solar provider, Sunrun understands the complexities of the business better than anyone. We are here to partner with you through a customized approach that delivers solar while reducing impact on your operations. We will take care of the details and regulatory requirements involved in solar, so that you can focus on building & selling homes.
