DXV creates premier bath and kitchen collections for discerning homeowners. Inspired by influential design movements spanning fifteen decades, we preserve pivotal design elements from each period, reimagined for today. Each movement—**CLASSIC, GOLDEN, MODERN, CONTEMPORARY**—is comprised of meticulously crafted, perfectly curated collections and pieces to streamline the renovation process while instilling the beauty, refinement and creativity that makes your home uniquely yours.

The **ETRE KITCHEN COLLECTION** is an exquisite representation of the design era known as Machine Age Modernism. It was a time when design influencers focused on functionality, practicality and purpose. True to this notion, the Etre collection is defined by the precision knurling that graces the touchpoints of each faucet for enhanced grip, and the sleek, clean lines of an apron-front sink. This combination of beauty and purpose is what makes Etre an exceptional choice for today's modern kitchen.
